

1. Raw material pump 2, primary evaporation heater 3, primary evaporation compressor 4, primary evaporation condenser 5, primary evaporation circulation pump 6, primary evaporation discharge pump 7, primary evaporation defoamer 8, primary evaporation base spray pump 9. Primary evaporation mother liquor pump 10, primary evaporation centrifuge 11, primary evaporation mother liquor 12, heavy dissolution situation 13. Heavy solution pump 14, secondary evaporation heater 15, secondary evaporation compressor 16, secondary evaporation product release 17, secondary evaporation circulation pump 18, secondary evaporation discharge pump 19, secondary evaporation mother wave pump 20, secondary evaporation defoamer 21, secondary evaporation concentration spray pump 22, secondary evaporation high core machine 23, secondary evaporation mother liquor tank
